

The Howe Home ‘Bombay Button’ is a perfectly sized little side table for anywhere and everywhere, taken from an original Art Deco design, discovered in an apartment on Marine Drive, South Mumbai, India, when wealthy Parsis made the Art Deco style popular in the 1930’s.

Hand made from solid well seasoned timbers by the last of a generation of truly traditional wood turners on an extraordinarily old lathe, this table is available now in Natural, Ebonised & Dark Fumed Oak as well as a lacquered finish in a range of colours.

DIMENSIONS:
Top diameter: 410mm / 16 "
Max Height: 410mm / 16 "

ADDITIONAL SPECIFICATIONS:
Oak is a natural timber and our Button tables are finished with natural beeswax. As such we recommend the use of coasters to protect the finish from ring marks caused by cups of liquid. General and more obvious care of our wood surfaces are to protect from direct contact with iron, steel or copper vessels, any heat, liquid or abrasive surfaces.

PRICE: £1,800 (inc VAT)

Traditionally hand-made in the United Kingdom
